India’s history is a very broad subject, and it is important to prioritize certain areas for Preliminary Civil Services and UPSC Mains. This article is written with the aim of providing a general guidance/study plan for Indian history for the IAS exam. We also list some important subtopics within Ancient India, Medieval India and Modern India. In addition, ÁÁÁ’s forgetting to check the recommended books for the preliminary and maintenance check-ups Indian history. Whether for Preliminaries or Mothers, it is important to identify priority topics for the IAS Exam. Analyzing previous previous One can come to the conclusion that the UPSC asks a large part of the questions of Modern India, followed by Ancient India. The questions of Medieval India are limited. Even if they come, they mostly touch areas of culture such as Mughal art/architecture. No, we are not advising you to leave any particular section of India’s history. Never leave any subject altogether. But you just need to prioritize things. “That’s all. And on this list of priorities, Modern India must come first. Returning to the syllabus: The History of India is very vast, the first thing that every serious aspirant should try to build is a basic understanding of the chronology of events related to the History of India. We suggested our previous post, “Indian History: Ancient India to Modern India Chronology,” as a starting point for your preparation. Once you build a foundation, the next strategy should be to identify the main topics of importance; for this, you can use good textbooks in the market. One of the most important events of the nineteenth century was the rise of Indian nationalism, leading Indians to seek first “self-government” and then “complete independence.” However, historians are divided on the causes of their rise. Likely reasons include a “clash of interests of the Indian people with British interests,” “racial discrimination” and “revealing India’s past.” Á In this topic, we provide important events in India’s history of 1857 (The Great Uprising) to 1947 (Indian Independence). This is a very important topic for all competitive exams. Certainly this will help candidates those who are preparing for the competitive exams.
